

Vital Flo-Chem Thick with Rust Guard

Vital Flo-Chem concrete agitator cleaner is a safe and easy to use cleaning formulation designed for removing concrete residue and buildup from agitator barrels whilst providing a unique anti-corrosive protection to steel surfaces.

Safe

Thick gel-like consistency = reduced splashing and exposure
Low acid content = safer than other cleaners
Low vapour emissions

Environmental

Thick gel-like consistency = reduced run-off and waste and product waste
Used neat = active working surface and reduced water usage

Economical

Cost effective with reduced volume requirement and reduced waste
Rust inhibitor = steel surface corrosion protection
Viscous consistency = reduced wastage and clings to the surface

Vital Chemical formulate, manufacture and provide
best value solutions focused on delivering
social, environmental and economic benefits.
